

## DC-DC(2 A) Converter custom built Technical Information

This DC-DC converter is ideally suitable for converting DC supply in to regulated DC power supply. This is very cost effective solution for battery operated vehicles. Converter is DIN rail mountable. Input voltage up to 60 Volts. The output is adjustable with presets. Output is settable from Input Voltage to (input Voltage-20V)

Product Picture:

- Technical Specifications

- i) Input supply :3 VDC to 60 VDC
- ii) Output supply: 3 VDC to 60VDC @2 Amps
- iii) Output voltage is settable by presets

Approvals and certification:

- 1) CE certified
